

EUSA Level 2 Coaching Courses Notes on TD Analysis Requirement – 2010 Project

1. Course participants in each L2 Coaching Course are required to research, analyse and then prepare their individual analysis of a number of Touchdowns that are included on the TFA resource package "100TD for Coaches of the Game".
2. Participants should receive a copy of the package NLT one week prior to commencement of the L2 workshop.
3. Each participant should prepare a 5-10 minutes presentation on each of the allocated TD from within that allocated group and be prepared to discuss the "cause and effect" of technical details (from the individual, sub-unit and team perspectives) for each of those the TD from both the ATTACKING and DEFENDING teams.
4. During the workshop delivery, each participant will be required to deliver their analysis on a minimum of 2 of the allocated TD. The selection will be based on one of the TD being nominated by the participant as a preferred analysis and the second TD being randomly decided by participant peers during the workshop.
5. Participants may anticipate availability of laptop, projector, screen, whiteboard and a pointing device to assist with their presentations.
6. Assessment of the detail of the analysis will be a factor in the overall assessment of a participant's performance at the L2 workshop.
7. Participants may discuss TD with other participants prior to the workshop.
